247 ASSIST: 6-MONTH OUTREACH PLAN & AUDIT EXECUTION GUIDE

Operational strategy, sales outreach cadences, and practical execution frameworks for regional market penetration across Gauteng.

---

1. 6-MONTH OUTREACH ROADMAP

Phase 1: Months 1–2 — Local Proof of Concept (Boksburg, Villa Liza, Kempton Park)

- **Target:** 5 Anchor Clients | Cold Voice Notes & In-Person Audits
- **Target Footprint:** Boksburg, Villa Liza, Vosloorus, Kempton Park, Germiston
- **Verticals:** Auto Workshops & Fitment Centers, Single-Practitioner Medical/Dental Clinics
- **Activity Volume:** 15 Target Businesses / Week (60 / Month)
- **Outreach Methods:** After-Hours Invisible Audits (17:30–20:00), Customized Voice Note Outreach, In-Person Drop-Ins
- **Revenue & Growth Milestones:** Month 1 = 2 Signed Clients; Month 2 = 3 Signed Clients (Total: 5 Clients, ~R7,500 MRR)

Phase 2: Months 3–4 — East Rand & Midrand Expansion (Benoni, Germiston, Midrand)

- **Target:** 12 Active Clients | Local Business Associations & Referral Engine
- **Target Footprint:** Benoni, Brakpan, Edenvale, Midrand, Centurion
- **Verticals:** High-Ticket Home & Trade Services (Emergency Plumbers, Solar/Inverter Installers, Gate Automation)
- **Activity Volume:** 25 Target Businesses / Week (100 / Month)
- **Outreach Methods:** Referral Engine (50% discount incentive), Google Maps/SEO Prospecting, Business Networking Meetups

- **Revenue & Growth Milestones:** Month 3 = 4 Signed Clients (Total: 9); Month 4 = 4 Signed Clients (Total: 13 Clients, ~R19,500 MRR)

Phase 3: Months 5–6 — Greater Gauteng Scale (Centurion, Sandton, Rosebank, Randburg)

- **Target:** 20–25 Active Clients | Inbound Content & Scaled Outbound Pipeline
- **Target Footprint:** Sandton, Rosebank, Randburg, Pretoria East
- **Verticals:** Multi-branch medical centers, large auto fitment groups, franchise trade services
- **Activity Volume:** 35 Target Businesses / Week (140 / Month)
- **Outreach Methods:** Case Study Proof Campaigns, Partner Agency Referrals, Tier 3 Enterprise Upselling
- **Revenue & Growth Milestones:** Month 5 = 5 Signed Clients (Total: 18); Month 6 = 5 Signed Clients (Total: 23 Clients, ~R34,500 MRR)

---

2. WEEKLY OUTREACH CADENCE

Day	Primary Focus	Operational Execution
Monday	List Building & Audits	Build target list of 25 businesses via Google Maps. Execute after-hours audits between 17:30 and 20:00.
Tuesday	Direct Outreach	Deliver personalized WhatsApp voice notes with attached audit proof screenshots and interactive demo links.
Wednesday	In-Person Visits	Perform scheduled and walk-in visits to high-priority

Day	Primary Focus	Operational Execution
		prospective workshops and medical clinics.
Thursday	Follow-Ups & Closing	Engage warm leads from demo interactions; convert qualified prospects into 7-day risk-free pilots.
Friday	Pilot Deployment & Review	Deploy weekend pilot systems; review conversation analytics and conversion rates with active clients.

---

3. PRACTICAL GUIDE: AFTER-HOURS INVISIBLE AUDITS

Step-by-Step Audit Execution Workflow

1. **Prospect Identification:**
    - Use Google Maps to search target verticals (e.g., *"Auto repair Boksburg"* or *"Dentist Kempton Park"*).
    - Filter and identify businesses with 4+ star ratings and listed WhatsApp Business/contact numbers.
2. **The Test Inbound Message:**
    - Execute strictly between **18:00 and 20:30**.
    - Send a realistic, high-intent inquiry from a secondary business line or standard personal line.
3. **Documentation & Proof Capture:**
    - Capture a clear screenshot displaying the exact timestamp of the sent inquiry.
    - Review the thread at **08:30** the following morning.

    - If no reply or an unhelpful auto-responder loop occurred, take a second screenshot documenting the communication gap.
    - Calculate exact response latency (e.g., *"14 hours 20 minutes"* or *"No human reply after 15 hours"*).

Sector-Specific Audit Message Examples

Example A: Auto Workshop / Fitment Center

- **Timestamp:** Sent at 19:15
- **Inquiry Script:** *"Hi there, looking to get a price estimate and availability for a major service and front brake pad replacement for a 2019 VW Polo 1.2 TSI. Hoping to bring it in this Saturday morning if possible?"*

Example B: Private Dental Practice

- **Timestamp:** Sent at 20:00
- **Inquiry Script:** *"Good evening, I have severe tooth sensitivity and need to book an urgent consultation for myself and my son this week. Do you have any open slots Thursday afternoon or Saturday?"*

Example C: Solar & Electrical Trade Services

- **Timestamp:** Sent at 18:30
- **Inquiry Script:** *"Hi, my inverter system is throwing an error code and failing to switch to battery backup during load shedding. Are you able to send a technician out tomorrow morning to inspect?"*

---

4. PRACTICAL GUIDE: CUSTOMIZED VOICE NOTE OUTREACH

Why Voice Notes Work

Voice notes achieve up to **80% listen rates** on WhatsApp compared to standard text messages. They immediately establish personal authenticity, showcase a local South African presence, and eliminate the perception of automated spam.

Step-by-Step Voice Note Outreach Process

1. **Prepare the Proof Asset:** Open WhatsApp, attach the screenshot of the unhandled after-hours query, and include a brief context caption: *"Hi [Owner Name], noticed this after-hours gap on your line yesterday evening."*
2. **Record the 45-Second Voice Note:** Speak clearly and naturally at a conversational pace.
3. **Deliver the Call to Action:** Dispatch the custom interactive demo link immediately following the audio file.

[Attachment: Screenshot_20231024_191500.png]

"Hi Marcus, noticed this after-hours gap on your line yesterday evening."

Real-World Voice Note Scripts

Example 1: Auto Workshop Owner Pitch (Targeting Boksburg Auto Repairs)

- **Text Attachment:** Screenshot of unhandled Polo brake service inquiry sent at 19:15.
- **Voice Note Script (35–45 seconds):***"Hi Marcus, Lesedi here from 247 Assist in Boksburg. I reached out to your workshop line yesterday evening around 7:15 PM asking about a Polo service and brake pad replacement for Saturday morning—just attached the screenshot above.*

I didn't get a response, which is totally understandable since your team was closed! But in auto repair across East Rand, around 35% of customer inquiries come in after 5 PM when people get off work. Most of those drivers end up messaging the next shop on Google if they don't get an instant answer.

I built a quick WhatsApp assistant for local workshops that answers pricing questions, takes vehicle details, and books Saturday slots automatically 24/7. I set up a 60-second test demo for your shop—I'm dropping the link right below this. Give it a quick try on your phone and let me know what you think!"

- **Follow-Up Link Text:** *"Try the live 60-second workshop demo here:* 🗋 *File"*

Example 2: Dental Practice Manager Pitch (Targeting Kempton Dental)

- **Text Attachment:** Screenshot of unhandled urgent consultation query sent at 20:00.
- **Voice Note Script (35–45 seconds):***"Hi Dr. Naidoo, hope you're having a good week. It's Lesedi from 247 Assist. I messaged your practice line yesterday at 8:00 PM trying to book an urgent consultation for myself and my son.*

When patients are in pain or planning after hours, they want to know their appointment is locked in right away. Without an immediate response, they usually keep scrolling down Google to find another open practice.

We've developed an automated WhatsApp booking assistant tailored for private practices in Gauteng. It answers fee FAQs, collects patient details, and syncs directly with your appointment calendar 24/7. I loaded a customized demo so you can test how your patients would experience it. Check out the link below—would love to hear your thoughts!"

- **Follow-Up Link Text:** *"Test your custom dental booking assistant here:* 🗋 *File"*

---

5. OBJECTION HANDLING & PILOT CONVERSION

Common Objections & Responses

"We already have an auto-reply on WhatsApp."

- **Response Framework:** *"Standard auto-replies are great for saying 'We are closed', but they don't capture the lead or book the appointment. 247 Assist*

actually collects their vehicle or patient info, answers service costs, and locks in the calendar slot while you sleep."

"My customers prefer talking to a real person."

- **Response Framework:** *"I completely agree during business hours! But at 8 PM on a Sunday, customers prefer an instant automated booking over waiting 12 hours for a reply. Plus, if a query is too complex, the bot flags your team directly with all lead details attached."*

"I don't have time to set this up."

- **Response Framework:** *"That's the best part—we handle 100% of the technical setup, pricing loading, and calendar connection. You don't build anything. We can have your 7-day risk-free pilot running in under 24 hours."*
